Please share your suggestions for improving the conference if repeated:

The information and presentation from the lawyer was good. I would have liked to hear more from him.

I loved the information and framing that the morning speaker provided--that exceeded my expectations. I had greater expectations, however, for the legal presentation. There was no new information provided. I was hoping for more tools, scenarios, and information.

Thank you!

More time for the attorney to discuss legal issues would have been valuable to me.

Thank you for an incredible day of learning!

I very much enjoyed the keynote speaker--she connected with folks and used meaningful examples and videos to reinforce and tie her themes together. I wish she had more time to complete her presentation. I thought the two different panels were very appropriate and left folks with much to think about and excellent examples. My only disappointment was the attorney. I did not find his presentation very helpful, somewhat disorganized, and not enough follow up with his scenarios. Time for some to share examples from their districts as to actual experiences would have enhanced and deepened the presentation/discussion. Also, moving around is certainly acceptable but he needs to stand still for some of the time.

Our initial presenter was excellent. I wish we could have had the whole day with her and eliminated the panel bits.

I always enjoy WASA conferences!

Thank you for a productive thoughtful day!

I enjoyed the presentation by the lawyer it was entertaining and informative.
I would have really liked to discuss more high school or secondary examples of discipline and what we are seeing and ways to work within the new laws. With the resources to communicate with state leaders, we can email and ask questions as they come up.

Would love to have heard/learned more about "other forms of discipline" or as what one of the panelist said, "what can we do not what we can't."

I would recommend adding a building administrator to the panel time. What do these new laws look like for the "boots on the ground."
