### Legislative Report

- At its October meeting, the WASA Board of Directors adopted WASA’s 2018 Legislative Platform. The centerpiece of the 2018 Platform is the ongoing effort to hold the Legislature accountable for delivering on the state’s “paramount duty,” complying with the Supreme Court’s orders in the *McCleary* education funding decision. A major focus for WASA, as well as the rest of the education community, in 2018 will be advocating for revisions of the adopted Education Funding Plan, EHB 2242. The WASA Legislative Platform identifies a set of the highest priority fixes necessary to effectively implement the bill: (1) special education funding, (2) salary allocations and a state salary schedule, (3) levy authority and Local Effort Assistance, and (4) regionalization methodology. The Platform also continues our advocacy in support of a series of required updates to school construction—with the priority being adoption of a full 2017–19 Capital Budget. The Platform closes with our ongoing request to enhance current state revenues to ensure the Legislature is able to fully comply with its paramount duty to fully fund basic education and also prevent drastic reductions of other necessary government services. WASA’s full 2018 Legislative Platform is available on the WASA website ([www.wasa-oly.org](http://www.wasa-oly.org)) under “Government Relations.”
- WASA continues to analyze EHB 2242 to ensure we can provide administrators with any necessary assistance as Washington’s K–12 system converts to a new funding structure, along with a new salary allocation framework, and a new local funding model. WASA has created a page on the WASA website to house EHB 2242 resources. The page includes summaries, an analysis of allowable enrichment activities, information on levy ballot propositions, and levy communication strategies. The page is regularly updated, so continue to check back: <http://bit.ly/2xxrYMq>
- WASA, in cooperation with the Local Funding Work Group (WASBO, WSSDA, WSPA, AEA, and AWSP), is developing a list of necessary revisions to EHB 2242. Similar to WASA’s 2018 Legislative Platform, the LFWG short list of “fixes” includes levies and Local Effort Assistance, salary allocations and a state salary schedule, and special education funding. The effort is to craft a set of priorities that our organizations can support with a common message and one voice. The document will be disseminated when it is finalized.
- The Supreme Court continues to retain jurisdiction in the *McCleary* case. On October 24, the Supreme Court heard oral arguments in the case and now we wait for a decision. The Court could

continue to retain jurisdiction and escalate sanctions; they could relinquish jurisdiction and end the case; or they could make a decision that falls somewhere in between. The Justices gave no indication of their intentions or timeline; however, most observers are expecting a decision sometime before the start of the 2018 Legislative Session. The one-hour hearing is archived on TVW at:

- **Please Update Your WASA Profile:** Just as districts around the state are asked for staff and student demographics, WASA often receives requests regarding our members' gender, race, and ethnicity. This information is helpful when specific invitations are made for members to serve on committees, task forces, or work groups. In addition, we are also asked for members from a mix of geographic area (east/west) and/or size of district (small to large) as needed. Please take a moment to update your membership profile to assist us in appropriately responding to the requests we receive. Go to WASA's website at [www.wasa-oly.org](http://www.wasa-oly.org) to log in/My WASA Profile/Update. You may also upload a photograph to include on your profile.
- **"Who's telling your story?"** Consider sharing your school and district stories with WASA for posting on the WASA website and in *Hotline*. Please send information and pictures to Tricia McCosh at [pmccosh@wasa-oly.org](mailto:pmccosh@wasa-oly.org).
