

REGION ELECTIONS

Each region is to determine how the election of region officers and/or the Leadership Team will be conducted. Some regions hold elections at a general meeting if a quorum of superintendents and non-superintendents is in attendance. Most regions use a Nominating Committee. Electronic ballots are sent in most regions. It is important that non-superintendents be involved in elections and have leadership opportunities.

It is also necessary that regions establish a timeline for elections, which allows for the selection of region officers by April 1, so they can attend the WASA Leaders Workshop that is generally held in mid-April of each year.
