2024 Supplemental Operating Budget —Details—

2024 Operating Budget: *Major* K-12 Highlights

| | |
|----------------------|---|
| Pupil Transportation | <p>\$77.7 million</p> <p>Funding provided for: “Transportation Correction” (\$76.9 million); and supplemental allocations to districts with higher costs due to pupil transportation contracts requiring employees to receive health/retirement benefits under ESHB 1248 (\$425,000)</p> |
|----------------------|---|

“Transportation Correction”

- The annual OSPI request for pupil transportation allocations is an estimate of the expected cost of operating student transportation service, based on prior year information
- The Legislature funds this estimate in the biennial Operating Budget; however, OSPI is required to provide an update on expenditures based on district data from spring, fall, and winter
- Under the Student Transportation Allocation Reporting System (STARS), the final allocation is calculated in February
- In 2024, it was determined that districts’ estimated cost was almost \$76.9 million less than needed
- As required, in mid-February, OSPI provided the updated data to the Legislature, and they responded with an additional appropriation to “fully fund” pupil transportation
- The Legislature appropriated the \$76.9 million; however, the funding was added to K-12 education “Policy Level” funding; clearly, this “Transportation Correction” is a required payment and should be tagged as a “Maintenance Level” increase
- ❖ **Total K-12 education funding in the Operating Budget would not change; however, “Maintenance Level” funding would be \$267.4 million and “Policy Level” funding would be \$258.1 million**

Pupil Transportation

➤ Pupil Transportation

- **HB 1248**
- Established new Pupil Transportation formula
- Required OSPI to establish safety net program for districts with additional costs to transport special passengers
- Created alternative grant program for districts with unique characteristics
- Contracted employee must receive health/retirement benefits
- **AS AMENDED:**
 - Deletes major provisions of underlying bill
 - School district pupil transportation contracts services must require the contracting employer to provide health benefits and pension contributions equivalent to those of school district classified employees
 - Provides supplemental allocations to districts that demonstrate higher costs because of the new contract requirements

Pupil Transportation

➤ Pupil Transportation

- **HB 1368—Zero-emission buses**
- Required school districts to transition 75 percent of bus fleets to zero-emission buses by September 1, 2030; after September 1, 2033, all buses purchased must be zero-emission
- Department of Ecology required to establish a competitive grant program
- AS AMENDED:
- Zero-emission bus purchase deadlines removed
- Formula-based grant program changed to a voluntary grant program for districts that choose to apply
- All new buses must be zero-emission when it is determine Total Cost of Ownership is equal or less than Total Cost of Ownership of diesel buses

2024 Operating Budget: *Major* K-12 Highlights

| | |
|--|--|
| Pupil Transportation | \$77.7 million Funding provided for: “Transportation Correction” (\$76.9 million); and supplemental allocations to districts with higher costs due to pupil transportation contracts requiring employees to receive health/retirement benefits under ESHB 1248 (\$425,000) |
| Paraeducator Staffing Allocations | \$71.8 million Funding provided to implement 2SSB 5882, enhancing staffing ratios in the Prototypical School Funding Model for paraeducators, office supports, and noninstructional aides, beginning in the current 2023-24 school year |

SB 6082—Increasing compensation for paraeducators Superintendent Reykdal request bill

- Increase paraeducator compensation by \$7/hour, plus benefits, adjusted for inflation and regionalization (\$193.6 million)
- Increased allocation based on paraeducators hired in 2022-23

Concerns:

- Intent is to provide additional allocations to “all” paraeducators—state, local, federal, grant funded—legislators have never done this
- “Compliance mechanism” proposed to ensure student-to-paraeducator ratio is retained—2018-19 baseline
- Increases provided for singular category of staff will create dissention and bargaining difficulties
- Fiscal projections assume 182-day contracts; most paras have 191-day contracts

➤ **Inslee Proposal:**

No bill; budget proviso only—\$64.4M

- Increase of \$3 per hour (plus benefits) for all paraeducators, adjusted for inflation and regionalization (based on paraeducators hired in 2022-23)
- Funding is specifically “not part of the state's program of basic education”

Paraeducators—Staffing Allocations

➤ Classified Staff Allocations

- **SB 5882**
- Phases in additional staff allocations for teaching assistance, office support staff, and noninstructional aides in the Prototypical School Funding Model
- AS AMENDED:
 - Provides for immediate Prototypical School Funding Model ratio increases of 0.076 in 2023-24 (no phase-in)
 - Replaces “teaching assistance” with “paraeducators”
 - Requires use of funds to **increase staffing, prevent layoffs, or increase salaries** for paraeducators, office support, and noninstructional aides; OSPI will adopt rules for 2024-25 school year
 - Requires OSPI data collection on use of funds

Paraeducators—Certificate Program

➤ Paraeducator Certificate Program

- **ESSB 5950**
- Underlying 2023-25 Operating Budget provided funding for grants to districts to provide required training in the Paraeducator Certificate Program
- 2024 Supplemental Operating Budget includes new proviso language specifying that school districts receiving these grants “**must prioritize funding toward compensation for paraeducators**” who complete the required hours of instruction per school year.”
-ESSB 5950, Section 503(5)

Materials, Supplies, and Operating Costs

➤ MSOC Request:

Increase Materials, Supplies and Operating Costs (MSOC) by approximately \$255 million in a catch-up payment to school districts to cover the 2023-24 school year; and

Adjust the school district MSOC funding levels for the upcoming 2024-25 school year in an amount that covers the actual projected MSOC costs, not the usual arbitrary “inflation” amount that has been used in the past several biennial budgets

Materials, Supplies, and Operating Costs

➤ MSOC

- **HB 2494**
- Increases MSOC per pupil rates in the current 2023-24 school year
- Proposed increases:
 - \$48 per student (as introduced)
 - \$23 per student (House Appropriations)
 - \$21 per student (House Floor)
 - \$28.81 per student (Senate Ways & Means)
 - \$21 per student (Senate Floor)
- FINAL MSOC increase: \$21 per student, beginning 2023-24 school year; increases Utilities & Insurance, Professional Development, and Security & Central Office Administration
- Bill language notes: MSOC rates “intended to address growing costs in the enumerated categories and may not be expended for any other purpose”

Next Steps

2025 Legislative Platform & Strategy

- WASA's underlying Goal is to prioritize K-12 funding in 2025
- The Strategy:
 - Adopt a Platform that narrowly focuses on key Basic Education issues;
 - Align school administrators—and education community—to speak with one voice; and
 - Provide members with a Tool Kit with key messages, talking points, fiscal data, and other resources to assist/ensure engagement with “Message Discipline”

2025 Focus:

Three Major Budget Priorities:

- **Special Education**
- **Pupil Transportation**
- **MSOC**

2025 Legislative Platform & Strategy

- Why focus on Special Education; Pupil Transportation; and Materials, Supplies & Operating Costs (MSOC)?
 - 1) Success in 2025 will positively impact ALL 295 school districts; automatically serves to unify/align WASA members
 - 2) Each issue is a Basic Education program, constitutionally required to be fully funded; there is clear, documented evidence none are fully funded
 - 3) School administrators are committed to ensuring each and every student is provided with the opportunity to learn and achieve their educational goals and aspirations—full funding of the three priorities will provide needed resources

Additional Priority Issues

- While the Goal is to focus on a narrow set of K-12 funding issues, school administrators—and other associations that will support the effort—will want to address additional issues

With a narrow, focused Platform, what happens with other issues?

- WASA—and our partners—will continue to engage on important education issues; however, most of our focus and energy will be fixed on the three Platform issues

Legislative Priorities

School administrators have ongoing concerns that must be addressed and legislators should be reminded about these needs, especially as many districts face a potential fiscal crisis:

- **Update Staff Allocations**
- **Modify Regionalization/Experience Factor**
- **Reform Levy/Local Effort Assistance**
- **Support Capital Facilities**
